▲山車が美しい、神明宮の秋祭り

We have various festivals through the year. The biggest one is "Tsutsukobiki" in March. It has a long tradition spanning over 280 years. Many brave men tug a big cylinder made of straws. In May, at Akasakanomori Park, a great number of carp made of cloth swim in the sky for children. In August, traditional dance festivals are held in each district of the town. And in October, we enjoy Including "Dashi" with a variety of colourful decorations in the parade. It is one of the beautiful autumn scenes of Hobara.
