スポーツ施設をはじめ、教育施設の充実している白沢村が私は大好きです。欲を言えば、夜遅くなってしまうとき、街にもっと明かりがあったらいいと思います。みんなが安心して学べる白沢村になってほしいと思います。

## Inspiration of humanity and culture

Under our goal of developing human resources in the new century, we are fully aware of the importance of personality and creativity of individual children in our school education. With our future more internationalized and information-oriented, we are stressing English education by foreign assistant-teachers and computer training at elementary and junior high schools.

Shirasawa, meanwhile, develops life-long learning projects for adults. By providing a variety of lectures at the public hall, we try to expand opportunities, wherever, whenever and whoever you are to learn. As Shirasawa has declared a village of sports, we urge all the villagers to play sports for better health.
