大熊の縄文時代は大平遺跡に代表されます。町内各所にも遺跡が発掘されており、先人たちの暮らしの様子に思いを馳せることができます。風景さえもよみがえってくる。

The Jomon period (an archaeological term designating the Japanese Neolithic cultural period extending from about 8000 B.C. or earlier to about 200 B.C.) of Okuma is represented by the Ohdaira Iseki (remains). The remains are currently being excavated here and there in our town, enabling us to think about the lifestyle of our predecessors. Some of them even evoke vivid memories of the scenery.
