WE WILL MAKE A HEALTHY WELFARE COMMUNITY FULL OF  
LIFE

心身ともに健康であることは町民生活の基本です。快適でゆとりのある生活環境の確保に向けて、保健センターを中心に質の高い保健医療サービスを提供することに努めます。

また、県立大野病院は最新医療機器を導入し、町内外からの患者の治療及び健康管理に努め、町民の健康を見守っています。

The most important thing for the life of all townspeople is to be healthy both mentally and physically. We will make every possible effort to provide high-quality health preservation and medical treatment services centering on our Health Center to bring about a comfortable and affluent living environment.

Furthermore, Prefectural Ono Hospital has introduced state-of-the-art medical appliances, engaged in the treatment and care of patients from inside and outside our town, and is keeping an eye incessantly on the health of townspeople.
